

MATH eBook User Information:

Students who have chosen to use the eBook package that is entirely online need to know where to find the following items all housed in MyMathLab (MML).

1. **eBook** is one of the side menu buttons in MML. Choose the chapter and then the section in the drop-down menu.
2. **Lecture videos for the text from the publishers:** From within MML select the side menu button Multimedia Library. Then select the chapter and section in the drop-down menu. Put a check in the boxes of the types of files that you would like to use. You may choose lecture videos or the podcast that can be downloaded to an iPod. Other types of multimedia files are available as well.
3. **Student Solutions Manual:** Select the side menu button *Tools for Success*. If there is no side menu button for the *Tools for Success* folder, then you will find it by selecting Chapter Contents. It should be near the top of the list of resources.
4. **Publisher's Tutor Center:** There is either a side menu button or you will see it at the top of the page within Chapter Contents. This links to information to contact professional math tutors by a toll-free phone number, fax, or e-mail.
